Europe United is the new pro-European, pan-European and federalist political party which advocates further integration of the EU and the establishment of a united Europe. Our party is organised around its 'Europe First' principle, meaning that it is not built to guard national interests but to develop Europe as an entity. From our headquarters in Brussels, our party intends to develop branches and contest in elections in every country of Europe.

Europe United is not affiliated with, or financed by, existing European institutions.
